Results of the admission process to the first grade of the English section (I. PYP AJ) of the IB Primary Years Programme (PYP) for 2026/27

The written part of the admission process to I. PYP AJ was held on May 16, 2026. There were 143 children who participated in the test.

We assessed:

- the ability of the child to listen to instructions and to focus; we tested skills gained in preschool and kindergarten (see Test 1 in the chart),
- level of visual differentiation, memory, concentration, hand-eye coordination and analytically systematic degree of knowledge (see Test 2 in the chart).

The oral part was held on one of the days from 26-28 May, 2026. There were 40 children invited for the interview. We invited all the children who gained at least 50% from both tests. It consisted of an individual interview with the child and group work.

We assessed:

- the English speaking skills of the child, as well as creativity, ability to follow simple and more complicated instructions
- socio-emotional area, coordination, work in a smaller and larger group of children
- listening with comprehension, speech fluency, self-regulation, spatial orientation
- memory and fine motor skills

The children were ranked in the list according to the sum of the points obtained in the written tests and oral examination. The table lists the children under the codes that the legal representatives received by email in the invitation.

For the 2026/27 school year, we are accepting the first 20 children from the table into class I. PYP AJ.

The legal representatives of the first 20 children on the waiting list can come to **collect the decision** on the admission of their child **in person on June 8, 2026 from 11:00 to 15:30** in the PYP library on the ground floor of the elementary school.

We thank you all for your efforts and interest in studying at our IB school. We wish all the participating children a lot of success in their further study.

Bratislava, June 2, 2026

Mgr. Renáta Karácsonyová
Principal of Spojená škola Novohradská
